1. PLATZ | AWARD 2025

PRODUCT FLYER

AUDIPY

Data analytics with AI. Efficiency matters.

AUDIPY reads postings, invoices and master data from almost any source, checks the entire data set and documents every step. With AI assistant AMY. For audit, tax advisory, controlling and companies.

Millions
of records from any format

17
analyses in three areas

1 click
to a finished analysis

Everything in one data set.
No split files, no copy errors, far less preparation than in Excel.

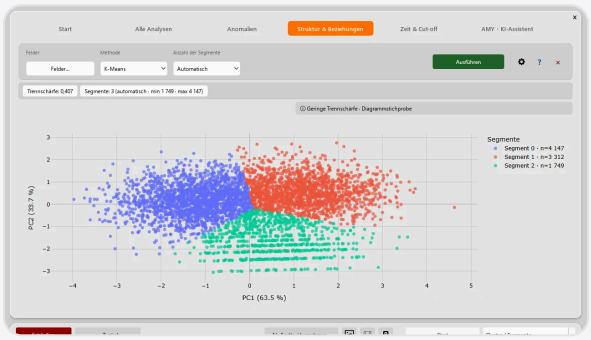

The whole data set in view.
Audits run across all records, not just a sample.

Questions, not formulas.
Ask AMY in plain language and get a table or chart.

Build once, use again and again.
Save audit steps and apply them to new data the following year.

One software. Everything for the audit.

Analyzer, AMY, XRechnung and Playbooks are part of AUDIPY. From import to audit report in one program.

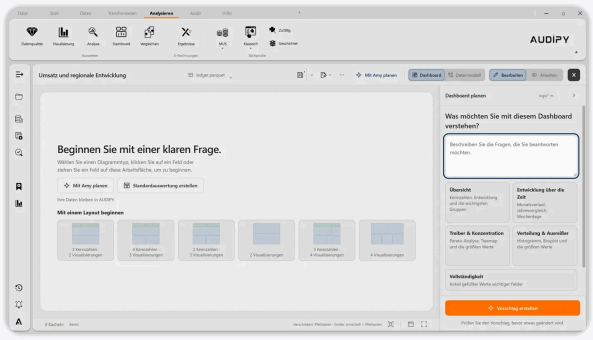

ANALYZER

Understand your data.

The engine for large data volumes: classic methods alongside statistics and AI.

- Gap analysis, duplicates, plausibility
- Monetary Unit Sampling and Isolation Forest
- Charts in the program or in Power BI with one click

AMY

Ask your data.

The AI assistant in AUDIPY answers traceably, as a table, chart or text.

- GDPR compliant with Mistral AI and Zero Data Retention
- Magic Prompt and Logic² for deeper analyses
- New columns from your description

Invoice RE-2025-00178 ✓ Valid · § 14 UStG

Seller	Sample Office Supplies GmbH
Buyer	Example AG
Printer paper A4	168.00 €
Toner black	267.00 €
Net 435.00 € · VAT 19 % 82.65 €	**517.65 €**

Sample data

XRECHNUNG

E-invoices made readable.

Included in every package: check and analyse XRechnung, ZUGFeRD and XML.

- Schema validation (CII, UBL) and bulk import
- Check against the requirements of § 14 UStG
- Findings report at the push of a button

Travel expense compliance 2025 with your AI agent

```
✓ Step 1/4 · 18 weekend postings
✓ Step 2/4 · 7 amounts without receipt
✓ Step 3/4 · 3 duplicate document numbers
✓ Step 4/4 · 12 cash payments checked
```

Final report **40 anomalies**

Example with sample data

PLAYBOOKS

Audit to plan.

Define workflows once and run them the same way every time with the AI agent of your choice.

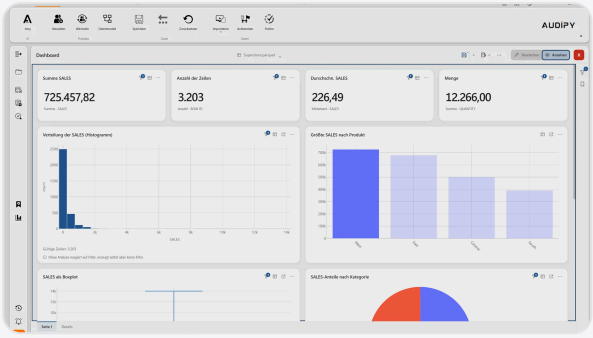

- Open via the MCP standard
- Every step traceable
- The same audit path for the whole team

ADD-ON

AuditPlus.

Prepared data imports and audit procedures, data models and dashboards. A DATEV or SAP data set is ready for audit in just a few steps.

+ 39 € / month per licence*

DataFlows
DATEV and SAP DART

AuditSteps
Balance sheet structure, ForecastAudit, word search

Datenmodelle
Templates or your own relationships
