TRAINING

AUDIPY WORKSHOPS

Practice, not theory. Four workshops.

From getting started to specialisation. You work directly with AUDIPY and carry out typical steps yourself, online, on site or at your premises.

I · INTRODUCTION

AUDIPY.kompakt

Getting started with AUDIPY

- Load data into AUDIPY and manage it in a structured way
- Operate the Analyzer with confidence in day-to-day work
- Create first filters, visualisations and analyses
- Optional: use AMY in plain language, in compliance with data protection

349 € online · **399 €** in person · 3.5 hours

II · ADVANCED TRAINING

AUDIPY.konkret

Advanced training in data analysis with AUDIPY

- Apply advanced filters and audit methods in a targeted way
- Recognise typical patterns and anomalies
- Build your own audit paths and rules
- Optional: integrate AMY's AI support into your workflow

349 € online · **399 €** in person · 3.5 hours

III · DEEP DIVE

AUDIPY.analytics

Deep dive into analytics in AUDIPY

- Apply distributions, outlier and gap analyses with confidence
- Use digit tests (e.g. Benford's Law) in a targeted way
- Visualise complex data flows with networks and parallel coordinates
- Present findings clearly for reports and presentations

649 € online · **699 €** in person · 5.5 hours

IV · VISUALISATION

AUDIPY.visual

Visualisation with Power BI and AUDIPY

- Use the AUDIPY Chart Builder productively
- Create meaningful charts for pattern recognition
- Export data from AUDIPY to Power BI and model it
- Build interactive dashboards for different stakeholders

649 € online · **699 €** in person · 5.5 hours

Prices per person, plus statutory VAT.

Who it is for

Auditors and tax advisors, Controlling and finance departments, Data analysts in companies, IT-related professionals working in data audit, Internal audit staff, Tax departments and compliance teams.
